

ABSTRACT SUBMISSION

The Scientific Committee invites attendees to actively participate in this Congress which will be a very significant occasion for the exchange of thoughts and experiences.

ABSTRACT SUBMISSION DEADLINE: 31st July 2026

All abstracts must be submitted through the online system on the Congress website and should be prepared in accordance to the instructions below.

Please read carefully the following instructions before proceeding the online submission

GENERAL GUIDELINES FOR SUBMISSION OF ABSTRACTS

1. Authors should select their presentation preference: oral presentation or free communication. Once your abstract has been approved, it will be considered by the selection committee, which will select the 20 best submissions for oral presentation. The committee reserves the right to reclassify any accepted abstract as a poster/free communication rather than an oral presentation.
2. For the oral presentation, authors will have 7 minutes for their oral presentation during the plenary session. For the free communication, the selected abstracts will be presented as e-posters through projection in the Exhibition Hall. No oral presentation will be required.
3. Please note that registration for the Congress is mandatory for the first author of all selected abstracts (both oral presentations and free communications). Abstracts will not be displayed or presented at the Congress unless the first author is registered.
4. Industrial abstracts will be accepted only for free communication.
5. The final decision on the presentation type relies on the Organizing Committee.
6. The main author and the presenter must be identified; presenters are requested to register within 5 days after having received their provisional notification of acceptance.
7. Abstracts should be submitted via the online form
8. Abstracts must be submitted and presented in **English**;
9. Maximum length (body of abstract): **1700 characters**.
10. Maximum length of the title of the abstract: **25 words**.

11. All accepted abstract submitters will receive confirmation by email. Please do not forget to indicate your correct email address when submitting your abstract, as well as the email addresses of the main author and the presenter.
12. Should it be realized, authors agree that their abstract will be published in the congress abstract book (pdf document, downloadable or printed). Please note, it would be published exactly as they have been provided and without any kind of editing;
13. Check spelling and grammar carefully. Direct reproduction from your electronically submitted abstract text means that any errors in spelling, grammar or scientific data will be reproduced as submitted.
14. Abstract structure must follow the following structure: Introduction, Methods, Results, Conclusions.
15. Please add the total number of the words at the end of the document;
16. If there are more than 6 authors on the application the names of the first 6 can be included but the remainder are described as 'et al'.
17. The corresponding author should specify whether a poster or an oral presentation is preferred or if there is no preference.
18. Applicants can submit more than 1 abstract as long as all applications represent separate pieces of work.
19. One of the authors must attend the meeting to present their abstract. Abstracts will not be allocated a presentation without registration of at least one of the listed authors. For authors who submit more than one application, then up to two presentations can be made per attendee. For three or more applications from the same group, two or more applicants must book to attend the Congress.
20. As part of the session "Quality Assurance in Europe: standards, gaps and real-life challenges", we are pleased to announce a special abstract competition on the theme:
"How to solve a quality improvement problem?" We invite participants to submit original work addressing practical approaches to identifying, analyzing, and solving quality improvement challenges in clinical practice. Submissions may include real-life case studies, implementation strategies, audit results, or innovative quality assurance models.
21. There will be a prize for the best free communication presentation for junior scientists (trainees, PhD students, research students, or research fellows).
22. All authors (main author and co-authors) should be listed with their last names (family names) and their first name(s). If there are more than 6 authors on the application the names of the first 6 can be included but the remainder are described as 'et al';
