WHO WE ARE

We're a global healthcare company working to deliver innovative health solutions through our medicines, vaccines, biologic therapies and animal health products. We're focused on discovering new solutions for today and the future.

WHAT WE DO

We use the power of leading-edge science to save and improve lives around the world. Our work in vaccines and immunization focuses on the goal of helping to make certain diseases a thing of the past.

For more than 100 years, our company has been a pioneer in the fight against certain vaccine-preventable diseases across the life course. Many of our vaccines are woven into the fabric of our societies as a cornerstone of public health.
